

Teacher Questionnaire

Please complete the questionnaire below concerning how you manage your classroom. This will help me prepare my student with hearing loss to be an active and productive member of your class. Once a student knows how a class will proceed and how to act, he/she can concentrate on the information being presented and not on behavior.

- **How do you greet the students when they enter in the morning?**

- **Describe your beginning of the day routine. (collect homework, attendance, etc.)**

- **How do you get the whole class attention? (clap hands, ring a bell?)**

- **How do individual students get your attention during instruction? Ask a question? Request help?** _____

- **What is your bathroom procedure? Trips out of the room?**

- **How do you deal with transitions between lessons or activities?**

- **What do students do if they finish their work before others?**

- **What is your procedure for absences? Make up work?**

- **Where are supplies kept? How does the student access them?**

- **Do you use a timeline? Where is it posted? How is it used?**

- **Please describe any other routines & procedures that you feel are important.**
